Aahaa Chai Zionsville, IN

Aahaa Chai: Just Chai It!!

Raji Muthukrishnan is the owner and founder of Aahaa Chai. She was born and raised in India where Spice is life. Approximately 45 percent of all spices sold around the world come from India. Chai, a common Indian tea drink, is basically tea blended with spices. When Raji, a biochemist by training decided to switch gears to become an entrepreneur, she wanted to recreate chai by staying true to her roots with the authentic taste while providing the customers a gratifying and contented “Aahaa” experience. She passionately pursues to change the way people think about chai by creating unique organic chai selections that are exclusive, diverse and delightful. The journey started with the traditional Masala Chai “Maharani’s Bold Masala Chai” - a refreshing and rejuvenating authentic chai brewed with Organic fair trade Bold Assam black tea, Organic spices and extra ginger buzz. The varieties then slowly expanded to create exotic blends like Lavender Vanilla Delight, Blissful Rose Chai made with savory organic spices that soothe your senses. All the chai blends are made with all organic, natural and aromatic ingredients that will not fail to pleasantly spice up your day.

Take a sip and “Find your Aahaa moment!!”
