

Star Fruit

Look: The star fruit is oblong, maturing from a dark green to an orangey-yellow color.

Taste: these have a slightly sweet & sour flavor depending on how ripe it is.

Touch: The outside of a star fruit is smooth and has a waxy skin that is edible.

Q: Do you know how the star fruit got its name!?

A: If you cut the star fruit crosswise, it forms a perfect star!

Did you know?

One Star Fruit tree can produce between 200-400 pounds of fruit each year!
